DETAILED ACTION

Information Disclosure Statement

1. The Non Patent Literature Documents of the information disclosure statement filed January 11, 2005 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

Allowable Subject Matter

2. Claims 1-15 and 20-27 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a capacitive sensor having a reference surface associated with the body and defining a reference plane having a desired orientation, as recited in the independent claim 1; a method of providing a reference plane having the step of adjusting an orientation of the reference surface in response to the sensed variable capacitance, the reference plane thereby having a
